

Vigirrom

'Scents that make sense'

Fragrances & flavours that cater to all applications.
Suppliers of natural & synthetic aroma raw materials.

VIGIROM PVT. LTD.

Vigirom Pvt. Ltd., was founded by K.Vijayakumar a veteran in the fragrance industry. Vigirom Pvt. Ltd., is one of India's well-known suppliers of aroma chemicals, natural raw materials, cosmetic ingredients, and fragrance/ flavour compounds. A third generation company, with a rich heritage and enormous experience, Vigirom ensures that customers enjoy efficient, personalized services that create lasting professional business partnerships.

Vigirom creates custom blends to cater to varied demands in the incense,

soap, detergent, cosmetic, deodorant, aromatherapy, and allied industries.

We boast of a wide range of modern and traditional fragrances that suit all needs.

Globally and locally sourced natural aroma raw materials like essential oils, resinoids, benzoin's and agarwood are a few amongst many other materials available in our range of products.

Vigirom brings to its customers a relationship that includes personalized service, quality materials, efficient and professional business partnerships.

Vigirom Pvt. Ltd., represents several international giants in the Cosmetic and Perfumery Industry, including

Agan Aroma, Israel

P.T. Indesso, Indonesia

ARX Farms, Slovenia

About our principle suppliers and products we source

Agan Aroma & Fine Chemicals Ltd.

At Agan Aroma we have prided ourselves on being tried and tested for our partners, who produce quality ingredients for the F&F industry for more than 40 years. Excellence in research and development, applying novel technologies and cutting-edge processes to known molecules has always been our strength and guiding principle. Our dedication to quality products and processes, together with genuine, agile relationships with our customers, has established long term, trusting partnerships with industry leaders.

Established in 1968 and headquartered in Jakarta, Indonesia, Indesso is a leading provider of natural ingredients, serving over 2,000 customers in the Flavors & Fragrances (“F&F”) industry in more than 50 countries globally. Indesso’s natural products are essential elements used in the formulation of a wide range of flavor ingredients in food and beverage products, as well as aromatherapy and fragrances in consumer products and nutraceuticals.

Over the years, Indesso has established a strong presence as a manufacturer of essential oils including their derivatives and botanical extracts unique to Indonesia. Through continuous research and innovation, it has transformed into an integrated solutions provider across the F&F ecosystem. Indesso is also one of the market leaders in Indonesia supplying F&F products and food ingredients on behalf of its global principals to the fast-growing local consumer goods industry.

Indesso’s underlying market is supported by global megatrends, such as the shift to natural based products, and the growing importance of sustainable supply chains. The Group supports the United Nations Sustainable Development Goals through its “People – Partnership – Planet” program, which seeks to develop a traceable and responsible natural raw material sourcing and reduce the environmental impact of its business activities.
